

7 Joints Arm Ultrasonic 40W RF Fractional CO2 Laser Machine For Rejuvenation

Our Product Introduction

For more products please visit us on hifubeauty-machine.com

Basic Information

- Place of Origin: China Guangzhou
- Brand Name: LZR
- Certification: CE
- Model Number: Q9
- Minimum Order Quantity: 1
- Price: confer
- Packaging Details: Standard export packing
- Delivery Time: 5-8days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100 Piece/Pieces per Month

Product Specification

- Name: RF Fractional CO2 Laser
- Aiming Beam: 650nm, ≤5mw
- Light Guiding System: 7 Joints Arm
- Size: 360x450x1250mm
- Operation System: Ultrasonic
- Headpiece: Fractional, Vaginal, Normal Cut
- Fractional Working Mode: Interval Continuous Working
- Laser Power: 40 Watts
- Style: Portable
- Highlight: **40W RF Fractional CO2 Laser ,
RF Fractional CO2 Laser Machine ,
Ultrasonic RF Fractional CO2 Laser**

Product Description

7 Joints Arm Ultrasonic 40 Watts RF Fractional CO2 Laser For Rejuvenation

Product Description:

The laser arm of this product is made in South Korea, ensuring high-quality and precise performance. This product is also relatively light, with a net weight of only 45kg, making it easy to transport and move around the clinic or office.

The RF Fractional CO2 Laser is an excellent alternative to other laser machines like the Bystronic CO2 Laser, ND YAG Laser Machine, or DPL Laser Machine. This product is ideal for skin resurfacing, acne scar treatment, wrinkle reduction, and other aesthetic procedures.

This product provides excellent results and is safe to use, thanks to its advanced features and technology. The RF Fractional CO2 Laser is a reliable and efficient tool that can help professionals achieve their desired results with ease.

Features:

Product Name: RF Fractional CO2 Laser

Power: 40 Watts

Laser Type: Fractional CO2 Laser

Aiming Beam: 650nm, ≤5mw

Fractional Working Mode: Interval Continuous Working

Size: 360x450x1250mm

Technical Parameters:

Product Attribute	Value
Fractional CO2 Laser Equipment	
Fractional 4D CO2 Machine	
Operation System	Ultrasonic
Output Mode	Ultra Pulse, Single Pulse, Fractional
Laser Power	40 Watts
Power	40 Watts
Laser Arm Origin	From South Korea
Laser Type	Fractional CO2 Laser
Net Weight	45kg
Laser Working Mode	Continuous
Size	360x450x1250mm
Style	Portable

Applications:

One of the primary uses of the RF Fractional CO2 Laser is for skin rejuvenation. It is particularly effective for treating wrinkles, fine lines, and acne scars. The laser works by creating microscopic channels in the skin, which stimulates collagen production and promotes healing. This results in smoother, firmer, and more youthful-looking skin.

The Bystronic CO2 Laser technology used in this product is also highly effective in treating uneven skin tone and pigmentation issues. The laser targets the melanin in the skin, breaking it down and allowing the body to naturally eliminate it. This leads to a more even skin tone and reduced pigmentation issues.

In addition to its skin rejuvenation benefits, the CO2 Fractional Laser is also commonly used for vaginal rejuvenation. The vaginal headpiece is designed to treat a variety of vaginal issues, including vaginal dryness, discomfort during intercourse, and even urinary incontinence. The laser works by stimulating collagen production in the vaginal tissue, which leads to increased lubrication and elasticity. The Picosecond Laser Machine used in the RF Fractional CO2 Laser is also highly effective in treating a variety of other skin issues, including stretch marks, scars, and even tattoo removal. The laser works by breaking down the pigment in the skin, allowing the body to naturally eliminate it over time.

Overall, the RF Fractional CO2 Laser is a versatile and highly effective laser product that can be used for a variety of different skin and vaginal issues. Its high-powered laser arm, which originates from South Korea, is capable of delivering up to 40 watts of laser power, making it one of the most powerful laser products on the market today.

Customization:

- Place of Origin: China Guangzhou
- Operation System: Ultrasonic
- Laser Arm Origin: From South Korea
- Laser Working Mode: Continuous
- Size: 360x450x1250mm
- Aiming Beam: 650nm, ≤5mw

Our product customization services allow you to tailor your IPL RF ND YAG Laser, ND YAG Laser Machine or Disco Laser Light to your specific needs and preferences. Contact us today to learn more.

FAQ:

Q: What is the Place of Origin for the RF Fractional CO2 Laser product?

A: The Place of Origin for the RF Fractional CO2 Laser product is China Guangzhou.

Q: What are the benefits of using the RF Fractional CO2 Laser?

A: The RF Fractional CO2 Laser can improve the appearance of fine lines, wrinkles, scars, and uneven skin tone.

Q: How does the RF Fractional CO2 Laser work?

A: The RF Fractional CO2 Laser uses a combination of radiofrequency energy and carbon dioxide lasers to stimulate collagen production and resurface the skin.

Q: Is the RF Fractional CO2 Laser safe?

A: Yes, the RF Fractional CO2 Laser is a safe and effective treatment when performed by a trained professional.

Q: How many treatments are recommended for optimal results?

A: The number of treatments recommended for optimal results may vary depending on the individual's skin condition and goals. Generally, 2-3 treatments are recommended for best results.
