Product Description

40W Continuous Working CO2 Laser 7 Joints Arm Light Guiding System

Product Description:

This machine's laser working mode is continuous, which means that it can deliver consistent results every time. It also features an aiming beam that is 650nm and ≤5mw, which makes it easier to target specific areas of the skin. The laser power of 40 Watts is perfect for those who need a more powerful solution for their skin care needs.

The Fractional 4D CO2 Machine is perfect for those who need a more advanced skin care solution. It uses a combination of fractional CO2 laser technology, IPL, and RF laser to deliver targeted results. This machine is perfect for those who need to treat skin conditions such as wrinkles, fine lines, acne scars, and hyperpigmentation. It can also be used to tighten skin and improve overall skin texture.

The IPL RF Laser is a powerful tool that uses intense pulsed light (IPL) and radiofrequency (RF) technology to improve the quality of your skin. It can be used to treat a wide range of skin conditions, including acne, rosacea, and sun damage. The laser works by targeting specific areas of the skin, which helps to stimulate collagen production and improve overall skin texture and tone.

Features:

Product Name: RF Fractional CO2 Laser

Size: 360x450x1250mm

Language: Multi-language

Light Guiding System: 7 Joints Arm

Net Weight: 45kg

Features:

Disco Laser Light

Fractional 4D CO2 Machine

Fractional RF

Technical Parameters:

| Language | Multi-language |
| Output Mode | Ultra Pulse, Single Pulse, Fractional |
| Laser Arm Origin | Made in china |
| Laser Working Mode | Continuous |
| Light Guiding System | 7 Joints Arm |
| Operation System | Ultrasonic |
| Aiming Beam | 650nm, ≤5mw |
| Power | 40 Watts |

Applications:

With a laser power output of 40 watts, this CO2 Laser Machine is powerful enough to remove wrinkles, scars, and other skin imperfections quickly and effectively. The laser arm of the machine is made in South Korea, ensuring that you are getting a high-quality, durable product that will last for years to come.

The Fractional Working Mode of this CO2 Fractional Laser Machine allows for interval continuous working, making it perfect for busy clinics and spas. This mode ensures that your clients receive the most effective treatment possible, while minimizing downtime between treatments.

This Co2 Laser Beauty Machine is also equipped with a multi-language interface, making it easy to use for clients from all over the world. Whether you are in the United States, Europe, or Asia, this machine will be able to meet your needs.

So what are the Product Application Occasions and Scenarios for this CO2 Laser Machine? Here are just a few:

Skin Resurfacing

Scar Removal

Wrinkle Reduction

Pigmentation Treatment

Acne Scarring Treatment

Vaginal Tightening

Whether you are a dermatologist, plastic surgeon, or spa owner, this CO2 Fractional Laser Machine is the perfect addition to your practice or business. With its versatile headpiece, powerful laser output, and durable construction, this machine is sure to become a go-to tool for all of your beauty treatment needs.

Customization:

The headpiece of our Fractional CO2 Laser can be customized according to your needs, including Fractional, Vaginal, and Normal Cut. Additionally, we offer CO2 Laser Safety Goggles to ensure the safety of the operator and the patient.

Our Fractional CO2 Laser product is perfect for those looking for a CO2 Fractional Machine. With its Fractional 4D CO2 Machine technology, it delivers excellent results with minimal downtime.

Choose our RF Fractional CO2 Laser product for all your beauty needs and experience the best in laser technology.

FAQ:

Q: What is the Place of Origin for the RF Fractional CO2 Laser?

A: The Place of Origin for the RF Fractional CO2 Laser is China Guangzhou.

Q: What is the purpose of the RF Fractional CO2 Laser?

A: The RF Fractional CO2 Laser is used for skin resurfacing and rejuvenation. It helps reduce the appearance of wrinkles, scars, and other skin imperfections.

Q: How does the RF Fractional CO2 Laser work?

A: The RF Fractional CO2 Laser works by emitting a laser beam that creates tiny, evenly spaced holes in the skin. This triggers the body's natural healing process, stimulating collagen production and promoting skin renewal.

Q: Is the RF Fractional CO2 Laser safe?

A: Yes, the RF Fractional CO2 Laser is safe when used by a trained professional. However, some mild side effects may occur, such as redness, swelling, and mild discomfort. These usually subside within a few days.

Q: How long does it take to see results from the RF Fractional CO2 Laser?

A: Results from the RF Fractional CO2 Laser can be seen within a few days to a few weeks after treatment. However, optimal results may take up to several months as collagen production continues to improve the skin's texture and appearance.
