Product Description

LB-100 Beauty Machine Diode Laser Beauty Machine With 8-Inch Touchscreen And 40W Output Power

Product Description:

This Co2 Laser Beauty Machine comes equipped with five treatment probes to provide you with a range of beauty treatments. The five treatment heads are perfect for treating different areas of the face and body, allowing for a more customized and effective treatment. The spot diameter is adjustable, ranging from 6mm to 14mm, which means that you can easily adjust the treatment area to suit your needs. With an output power of 40W, this Home Beauty Machine is powerful enough to deliver professional-quality results in the comfort of your own home. Whether you are looking to treat fine lines and wrinkles, acne, or other blemishes, this machine is designed to deliver the results you want.

The Diode Laser Beauty Machine is easy to use and is designed to be user-friendly, making it perfect for beginners and experienced users alike. The machine is equipped with a range of safety features to ensure that you can use it safely and without any risk of injury. If you are looking for a high-quality, portable, and effective beauty machine, then the Diode Laser Beauty Machine is the perfect choice. With its range of treatment probes, adjustable spot diameter, and powerful output, this machine is designed to deliver professional-quality results in the comfort of your own home.

Applications:

The Laser Beauty Machine is equipped with 3*755nm laser bars, 4*808nm laser bars, and 3*1064nm laser bars. With this combination, the Hair Removal Laser Machine is able to target a wide range of hair colors and skin types, making it suitable for a variety of treatment scenarios. The energy density of the machine ranges from 1-10J/cm², allowing for precise and effective treatment.

The Hair Removal Laser Machine comes with 5 different treatment probes, each designed for a specific application. This makes it a versatile tool for a variety of beauty treatments. The machine is ideal for use in salons, spas, and other commercial beauty settings.

Some of the common application occasions and scenarios for the Hair Removal Laser Machine include:

Unwanted hair removal on the face, arms, legs, back, and other areas of the body

Treatment of skin pigmentation, such as age spots, sun damage, and freckles

Reduction of fine lines and wrinkles on the face and neck

Tightening of sagging skin on the face, neck, and other areas of the body

Treatment of acne and other skin blemishes

With its powerful laser technology and versatile treatment probes, the Hair Removal Laser Machine is a must-have tool for any commercial beauty setting. With a minimum order quantity of just 1 machine, it is easy to get started with this top-performing E Light Beauty Machine.
